

# Kegler's Sin City - Red

<b>Class:</b>	<b>Mayfly Nymph</b>
<b>Matches:</b>	<b>A mayfly imitative and attractor pattern</b>
<b>Originator:</b>	<b>Russell Kegler</b>
<b>Source:</b>	<b>The Fly Shop See Tying Recipe</b>

## Clay's Notes

Russell Kegler created the Sin City patterns. They are designed to be both an imitative pattern as the profile is slim and of appropriate size and as an attractor with the bright wire abdomen. It is sort of a combination of a Copper John and an imitative mayfly nymph at the same time
