

PMD Nymph

Class: Mayfly Nymph

Matches: Most all mayfly nymphs by matching the size and color of the natural

Originator: Unknown

Source: Solitude Flies Retailer

Clay's Notes

This PMD Nymph which is sold by Solitude Flies has an extremely slender profile. If you spend much time turning over rocks in the river and take a look at the size and profile of the nymphs scrambling around you'll see they are (1) smaller than you might think and (2) very slender. In my opinion most mayfly nymph patterns are way too chunky and thick. This one has materials barely covering the hook shank. Take a nymph that you pick up from under the rocks, drop it into your nymph box and you'll see why you need more flies similar in profile to this one.
