

Hogan's Sipper - BWO

Class: Emerger

Originator: Hogan Brown

Source: Fly Shops that sell
Iydlwilde Flies

Clay's Notes

Hogan Brown Sipper is a great emerger pattern in soft waters. It has been proven to be effective on the Lower Yuba. I usually use this pattern as a trailer in the runs, tailouts and eddy pools. I will use a BWO parachute or a BWO Emerger that has a post that I can see and keep track of. The Sipper is trailed about 12" to 14" behind the point fly. If I see a boil or nose poke out of the film I raise the rod tip. The Sipper gets eaten 4 to 1. Add this to your BWO box.
