

Mercers Trigger Nymph

Class: Nymph

Originator: Mike Mercer

Source: Tie Your Own

Clay's Notes

The *Trigger Nymph* is an extremely effective Mayfly Emerger Pattern. The key to the Trigger Nymph is the “exploding” wing case. The exploding wing case is made of Ice Dub, a very eye catching dubbing. This ball of dubbing is imitating an insect exploding out of its nymph case, in the middle of the emergence. The Trigger Nymph can be tied in sizes #12-18, and can be tied to imitate all types of mayflies.

Mercers Trigger Nymph Tying Recipe

Hook: #16 Tiemco 3769
