

CDC Rusty Biot Spinner

Class: Mayfly Spinner

Matches: March Brown Spinner

Originator: Unknown

Source: See Tying Recipe

Clay's Notes

Not many people that I know of fish the March Brown spinner fall around here on the Lower Yuba River. If you fish a March Brown Parachute, try trailing it with this CDC Rusty Brown Spinner. It is almost invisible when floating on the currents so using a point fly that you can see makes a big difference. If you want to try to match the March Brown spinners. Here's one.

CDC Rusty Biot Spinner Recipe
