

# Chernobyl Ant

**Class:** Other - Terrestrial

**Matches:** Flying Ants

**Originator:** Unknown

**Source:** The Fly Shop  
See Tying Recipe

## Clay's Notes

The Chernobyl Ant is a great hopper and attractor pattern. The Chernobyl Ant is made of primarily foam, so the fly floats like a cork! The Chernobyl Ant is best used in the heat of summer, when grasshoppers and terrestrials are most active. The Chernobyl Ant can be tied in many different colors. Tan, Olive and Yellow are the most common and effective. The Chernobyl Ant is tied large. #06-10 are the best sizes to use.

### Chernobyl Ant Tying Recipe
