

# Quigley's Flash Caddis

**Class:** Nymph

**Originator:** Bob Quigley

**Source:** Iydlwilde Flies

## Clay's Notes

**This is a cool nymph/emergent from the creative mind of Bob Quigley. It will work when the Spring Caddis are coming off on the Lower Sacramento or the Lower Yuba River. It is a simple fly. I don't have a recipe for this but use your imagination and tie up something similar. I really like the looks of this fly. It could be dead drifted or swung. Try this under indicator, get it down and then let it swing up in the water column at the end of the drift. I'll bet the trout whack it.**

**This fly is available from Iydlwilde Flies.**
