

Sliverman's Sparkle Bee

Class: Other – Terrestrial

Matches: Bee

Originator: Unknown

Source: Dream Drift Flies

Clay's Notes

When the farmers bring out the bee hives to pollenate their crops the bees need water to survive. When they head to the river to get a drink, guess who's waiting for an easy meal, the trout. Using a bee pattern can be surprisingly effective.

This pattern is available from Dream Drift Flies. They carry thousands of fly patterns and offer volume discounts.
