

Fly Fishing Traditions Drift Boat 101

On the Lower Yuba River

Fly Fishing Traditions Drift Boat 101

This Fly Fishing Drift Boat 101 is an eight hour floating clinic on the Lower Yuba River in my hand-crafted wooden drift boat. This clinic will give you the confidence to row a drift boat, an oared raft or a whitewater rated pontoon boat down a Type 1 or Type 2 river.

You don't even have to own a drift boat or an oared raft to have a reason to learn how to row. Many of you may know someone who has a river boat and would love to take a rest from rowing and fish a little bit. If you know how to row guess who they will call to go fishing next time.

You can have a whole new experience about fishing rivers if you can learn how to navigate them safely and effectively.

The Drift Boat 101 will be taught will on the Lower Yuba River. With the skills learned you will gain the confidence to navigate many rivers using a drift boat, a raft with a rowing frame or a whitewater ratted pontoon boat.

Just bring an attitude to learn!

What You Will Learn

- Why you would choose a drift boat, an oared raft or a pontoon boat
- Safety Principles
- Gear
- Basic and Advance oar strokes
- Why do we almost always back row?
- How to shove off
- Learn how to “Ferry” to navigate
- Maneuvering around hazards
- How to control the speed of your drift
- How to position the boat for optimum fishing

All of these tactics will be thoroughly discussed and demonstrated. You will have the benefit of working closely with a highly qualified instructor/guide.
